

2016 Campus Elections: Crown Run-Off Election

Candidate Statements

Mason Hargrave

As Crown SUA Representative, I will stand for Crown's values. I will focus on efficiency within student government, that your money will not be spent wastefully. I will focus on funding events like hackathons, video game competitions, and of course, student research. I will promote educational diversity, by resolving the failings Online Only Calculus Courses, and providing more in-person enrichment opportunities. I will also be creating a web page where Crown students can submit their wants and needs to be directly, so that I can see problems, and respond right away. I am Mason Hargrave, and I look forward to working with you all.

Nicole Thompson

After years of student government in high school, I decided I no longer wanted to be in charge of other people. But rather than being in charge, being a representative is about listening and taking part in the Crown community. I believe I am qualified for that job. Over two years I've been involved in both Crown and larger UCSC communities, from Rutherford's Fire Nation and every Crown trivia night to Slug Rugby, the Cantu, and MESH. I will even be working to improve Crown advising this fall as a CUIP intern.

I understand Crown students' concerns regarding overflow in housing and Baskin classes, and want to provide a strong voice for Crown on these issues. I plan to work alongside Crown Student Senate to achieve this, and to be open to all Crownies' ideas and concerns. I am proud to announce my official candidacy for Crown representative.
